

V. ÉLVONAL Conference
Social behaviour, demography and
conservation of shorebirds
(online event)

14-15 January 2022

Final programme

Organizers:

Fanni Takács

Karola Szemán

Dr. Vojtěch Kubelka

Dr. William Jones

Zsófia Tóth

Prof. Tamás Székely

Sponsors:

UNIVERSITY of
DEBRECEN

EVOL ZOOLOGIA
UNIDEB

Remember the conference timings are in CET. Please convert this to your local time zone.

Please note that: start and end times of each sessions are normative time frames. Extension or shortening of the given 20 minutes periods may occur because of the pre-recorded talk's duration. Please join the session in time so you will not miss the talk you have particular interest in.

14. January 2022, Friday

10:00-10:30	Tamás Székely Welcome & Introduction talk
10:30-11:00	Vojtěch Kubelka ÉLVONAL fieldworks during 2021 – an overview
11:00-12:00	Nicola Hemmings (plenary talk) Sperm selection and its consequences for female fitness in birds
Session 1	
<i>Chair: Vojtěch Kubelka</i>	
12:00-12:20	Zsófia Tóth The effect of mating systems on spermatozoa characteristics in shorebirds
12:20-13:20	Lunch break
13:20-13:40	Nolwenn Fresneau Adult sex ratio in two populations of pheasant-tailed jacanas: application of a new statistical approach using unmarked individuals
13:40-14:00	Claire Tanner The effects of life history traits and temporal variation on nest survival for three plover species in Madagascar
14:00-14:20	Kees Wanders Polygamy enhances purifying selection through sexual selection and gene flow
14:20-14:40	Melisa Bal Conservation activities for breeding Northern Lapwings (<i>Vanellus vanellus</i>) in Kızılırmak Delta, Turkey
14:40-15:00	Coffee break
Session 2	
<i>Chair: William Jones</i>	
15:00-15:20	Anastasia Kisliakova Social behaviour and demography of shorebirds in Turov, Belarus
15:20-15:40	Ádám Kiss Conservation and management of Collared Pratincole (<i>Glareola pratincola</i>) in Hungary
15:40-16:00	Guillaume Dillenseger Shorebirds of the high Andes: first insights into their breeding ecology
16:00-16:20	Andreas Rimoldi Plumage coloration patterns in shorebirds: Sex roles, camouflage and research interest
16:20-16:40	Allison K Pierce Monitoring breeding Mountain Plovers (<i>Charadrius montanus</i>) in a high-elevation grassland: 2021 fieldwork summary South Park, Colorado, USA
16:40-17:30	General discussion and following group discussions

15. January 2022, Saturday

9:00-9:40	Vojtěch Kubelka (plenary talk) Is migration of shorebirds to Northern breeding grounds still beneficial?
Session 3	
<i>Chair: Zsófia Tóth</i>	
9:40-10:00	Noemie Engel Breeding ecology of Kentish plover <i>Charadrius alexandrinus</i> in Maio, Cabo Verde, 2021
10:00-10:20	Romy Rice The breeding ecology of the Cream-coloured courser; 2022 fieldwork update
10:20-10:40	Bakhouche Badis Progress and outlook for ÉLVONAL in Algeria
10:40-10:50	Coffee break
10:50-11:10	Narhulan Halimbekh Shorebirds breeding ecology fieldwork at the Berg River Estuary, South Africa, 2021
11:10-11:30	Prasath Selvaraj Breeding Ecology of Bronze-winged Jacana (<i>Metopidius indicus</i>) from Southern India
11:30-11:50	William Jones A primer to Buttonquail science
11:50-12:30	Lunch break
12:30-13:30	Tamás Székely & Vojtěch Kubelka Current and Future ÉLVONAL publications
13:30-14:00	General discussion
Closing
